Hongkong Tides.

The Tide Table given below has been compiled by the Nautical Almanac Office in London from the result of the analysis of observations taken by means of an automatic tide-recording machine in the Water Police Basin at Tsim Sha Tsui during the years 1887-8-9.

The zero of the table is Low Water Ordinary Spring Tides, which has been found to be 2 feet below mean sea level.

To obtain the depth of water on the tide gauge at the Victoria Naval Yard add 5 ft. 7 in., and on the gauge at Lamont Dock, Aberdeen, add 12 ft. 9 in. to the height given in the table.

Let to 7th August.

IS IT RIGHT FOR AN EDITOR TO RECOMMEND PATENT MEDICINES?

FROM Sylvan Valley News, Brownsville, N.C. It may be a question whether the editor of a newspaper has the right to publicly recommend any of the various proprietary medicines which flood the market, yet say a good word for Chamberlain's Colic, Cholera and Diarrhoea Remedy. We are known and use this medicine in our family for twenty years and have always found it reliable. In many cases a dose of this edicine would save hours of suffering which a physician is availed. We do not believe depending implicitly on any medicine, but we do believe that if a bottle of Chamberlain's Diarrhoea Remedy were on hand and administered at the onset of an attack much suffering might be avoided and in very many cases the presence of a physician would not be required. At least this has been our experience for the past twenty years. For sale by all Dealers. Watkins & Co., General Agents.
